

GATE MAINTENANCE

To clean, rinse with lukewarm water, wash gently with mild soap or detergent and lukewarm water, using a soft cloth or sponge. Rinse again. Dry with a soft cloth or sponge to prevent water spotting. DO NOT SCRUB or use brushes or squeegees.

GATE CARE & REMINDERS

Our gates are built to last many years with proper use and care. Here are a few suggestions...

- Close gates gently - do not slam - to prevent damage to latch mechanism.
- When closing, be sure latch on gate frame engages as depicted in instructions.
- For safety, always close gate when not in use. Children should not be allowed to swing on an open gate. Discontinue use of gate if it becomes damaged, broken or disassembled.
- Periodically check all screws, bolts, etc. for security and proper adjustment.

CARDINAL GATES, INC., offers many accessories such as extensions, stair kits, and other safety products. Check with your dealer or call **CARDINAL GATES, INC.** at **770-252-4200**.

We sincerely hope that you thoroughly enjoy many years of service from your **CARDINAL GATE**.

GATE WARRANTY

Your Cardinal Gate is warranted to be free of manufacturing defects for a period of one year from the date of purchase when used in homes, and according to manufacturers instructions. When used commercially, such as day care centers, the warranty is 90 days.

Cardinal Gates, Inc. will either repair or replace, at our option, any parts necessary to correct defects in material or workmanship during the warranty period. The warranty disclaims liability for incidental, special and consequential damages of any nature.

TO EXERCISE WARRANTY:

Ship your gate in a protective carton, freight prepaid to:
CARDINAL GATES, INC.
79 Amlajack Way
Newnan, GA 30265

You must include the following:

1. Proof of purchase (store receipt, etc.).
2. Brief note describing problem with gate.
3. Full return address along with phone number.

PRESSURE GATE - MODEL PG26

GATE INSTALLATION

JUN.2026

! WARNING Children have died or been seriously injured when gates are not securely installed.
• ALWAYS install and use enclosures as directed using all required parts. • NEVER use to keep child away from pool.
• STOP using when a child can climb over or dislodge the enclosure. • Use only with the latching mechanism securely engaged.

! WARNING You MUST install wall cups to keep gate in place.
Without wall cups, child can push out and escape.

ADDING EXTENSIONS

1. Remove standard inserts on one side of gate with screwdriver. Add extension to gate. Replace inserts, now into extension, then install part (E), screwing into insert.

2. Attach the medium or large extension by inserting the metal rod into gate and into extension. Install part (E), screwing into newly added extension end.

GATE IS RECOMMENDED FOR CHILDREN BETWEEN 6 AND 24 MONTHS AND TO INSTALL IN DOORS OR HALLWAY OPENINGS.

THIS GATE IS NOT RECOMMENDED FOR TOP OF STAIRWAY USE.

2. With gate sitting on floor, twist and extend the stabilizer tabs. Using a pencil, mark around all four (4) circles of stabilizer tabs on both walls.

3. Remove gate to install wall cups. IF INSTALLING INTO DRYWALL, use anchors, mark center circle of (D) on wall and insert anchor (B) in drywall. IF INSTALLING INTO WOOD use sticky pad (C) to hold disc on on mark. Mount wall cups onto wall using screw (A).

4. Reinstall gate into mounted wall cups. Firmly secure gate in opening by tightening wheels on all four pressure points. Use tightening wrench (F) if necessary.

5. For smooth operation, make sure gate is level and latch gap is 1/16" (about the thickness of a penny). NOTE: Too loose or tight will cause latch to not function properly.

GATE OPERATION

TO OPEN
Slide button back with thumb and lift gate to open.

TO CLOSE
simply push door shut.

PRESSURE GATE - MODEL PG26 GATE & EXTENSION SPANS

NOTE:
Gap is NOT a defect.
